

NUTRAFOL®

Hair Growth Serum

A lightweight, leave-in topical solution with a patented growth complex and natural ingredients shown to support thicker-looking, stronger-feeling hair with visibly more density by nourishing, hydrating, and invigorating the scalp in targeted areas of concern. A daily complement to Nutrafol hair growth supplements.

Benefits

Thickness

Clinically effective phytoactive extracts support visibly denser hair growth that looks thicker and healthier. ^{1,2}

Strength

Nutrient-rich ingredients help minimize breakage and promote stronger-feeling hair. ^{1,2}

Scalp health

Botanical extracts nourish, hydrate, and invigorate the scalp for a healthy environment for hair to grow. ^{3,4}

Indications

For adults with thinning hair who are taking a Nutrafol hair growth supplement and also want to use a topical solution on the scalp to improve how thick and strong their hair looks and feels.

Directions

- Apply one dropper-full onto hands and massage into the scalp where desired.
- This is a leave-in treatment.
- Do not rinse hair after application.
- Use twice daily for best results.
- Do not ingest.

Product Features

Clinical results

Clinically tested ingredients show results after 3 months of daily use.

Light, water-based drops

Easy application and more convenient to use than oil-based products that could leave a greasy residue.

Natural scent

Tea tree oil has a crisp and earthy scent and is known to invigorate the scalp.

Free Of

- Synthetic Fragrance
- Parabens
- Phthalates
- Silicones
- Sulfates

The Science

While thinning hair is caused by multiple underlying factors that affect the entire body including hair follicles, the scalp is also affected by external factors like environmental triggers that can dehydrate skin while depleting collagen and key nutrients needed for healthy hair growth.

So while Nutrafol supplements should play a primary role in improving hair growth by targeting root causes from within, the topical Hair Growth Serum plays an important supporting role by targeting areas of concern on the scalp itself by providing nutrients and antioxidants.

Key Ingredients

Phytoactive Growth Complex

A patented blend of powerful antioxidants and minerals shown to support the growth of thicker-looking hair that feels stronger. ¹

Pea Sprout

Rich in protein and phytonutrients and shown to visibly increase hair density. ²

Sea Buckthorn

A potent plant extract rich in antioxidants and omega fatty acids known to nourish and hydrate the skin to promote scalp health. ³

Moringa

An antioxidant-rich botanical high in polyphenols known to counter environmental stress and provide hydration for a healthy scalp. ⁴

Ingredients

Water, Glycerin, Green Tea Leaf Extract, Glycine, Larix Europaea Wood Extract, Sodium Metabisulfite, Zinc Chloride, Pea Sprout Extract, Alcohol, Olive Leaf Extract, Turmeric Root Extract, Horsetail Extract, Sea Buckthorn Fruit, Neptune Kelp Extract, Maca Root Extract, Tea Tree Leaf Oil, Moringa Leaf Extract, Ginseng Root Extract, Panthenol, Theanine, Melatonin, Niacinamide, Sodium Dehydroacetate, Sodium Hyaluronate, Phytic Acid

Precautions

For adults only. For topical use only. Do not ingest. Avoid eye contact. Contact your doctor if irritation occurs. Keep out of reach of children.
